

# VILLA REY

---

## *A StillWater Mansion*

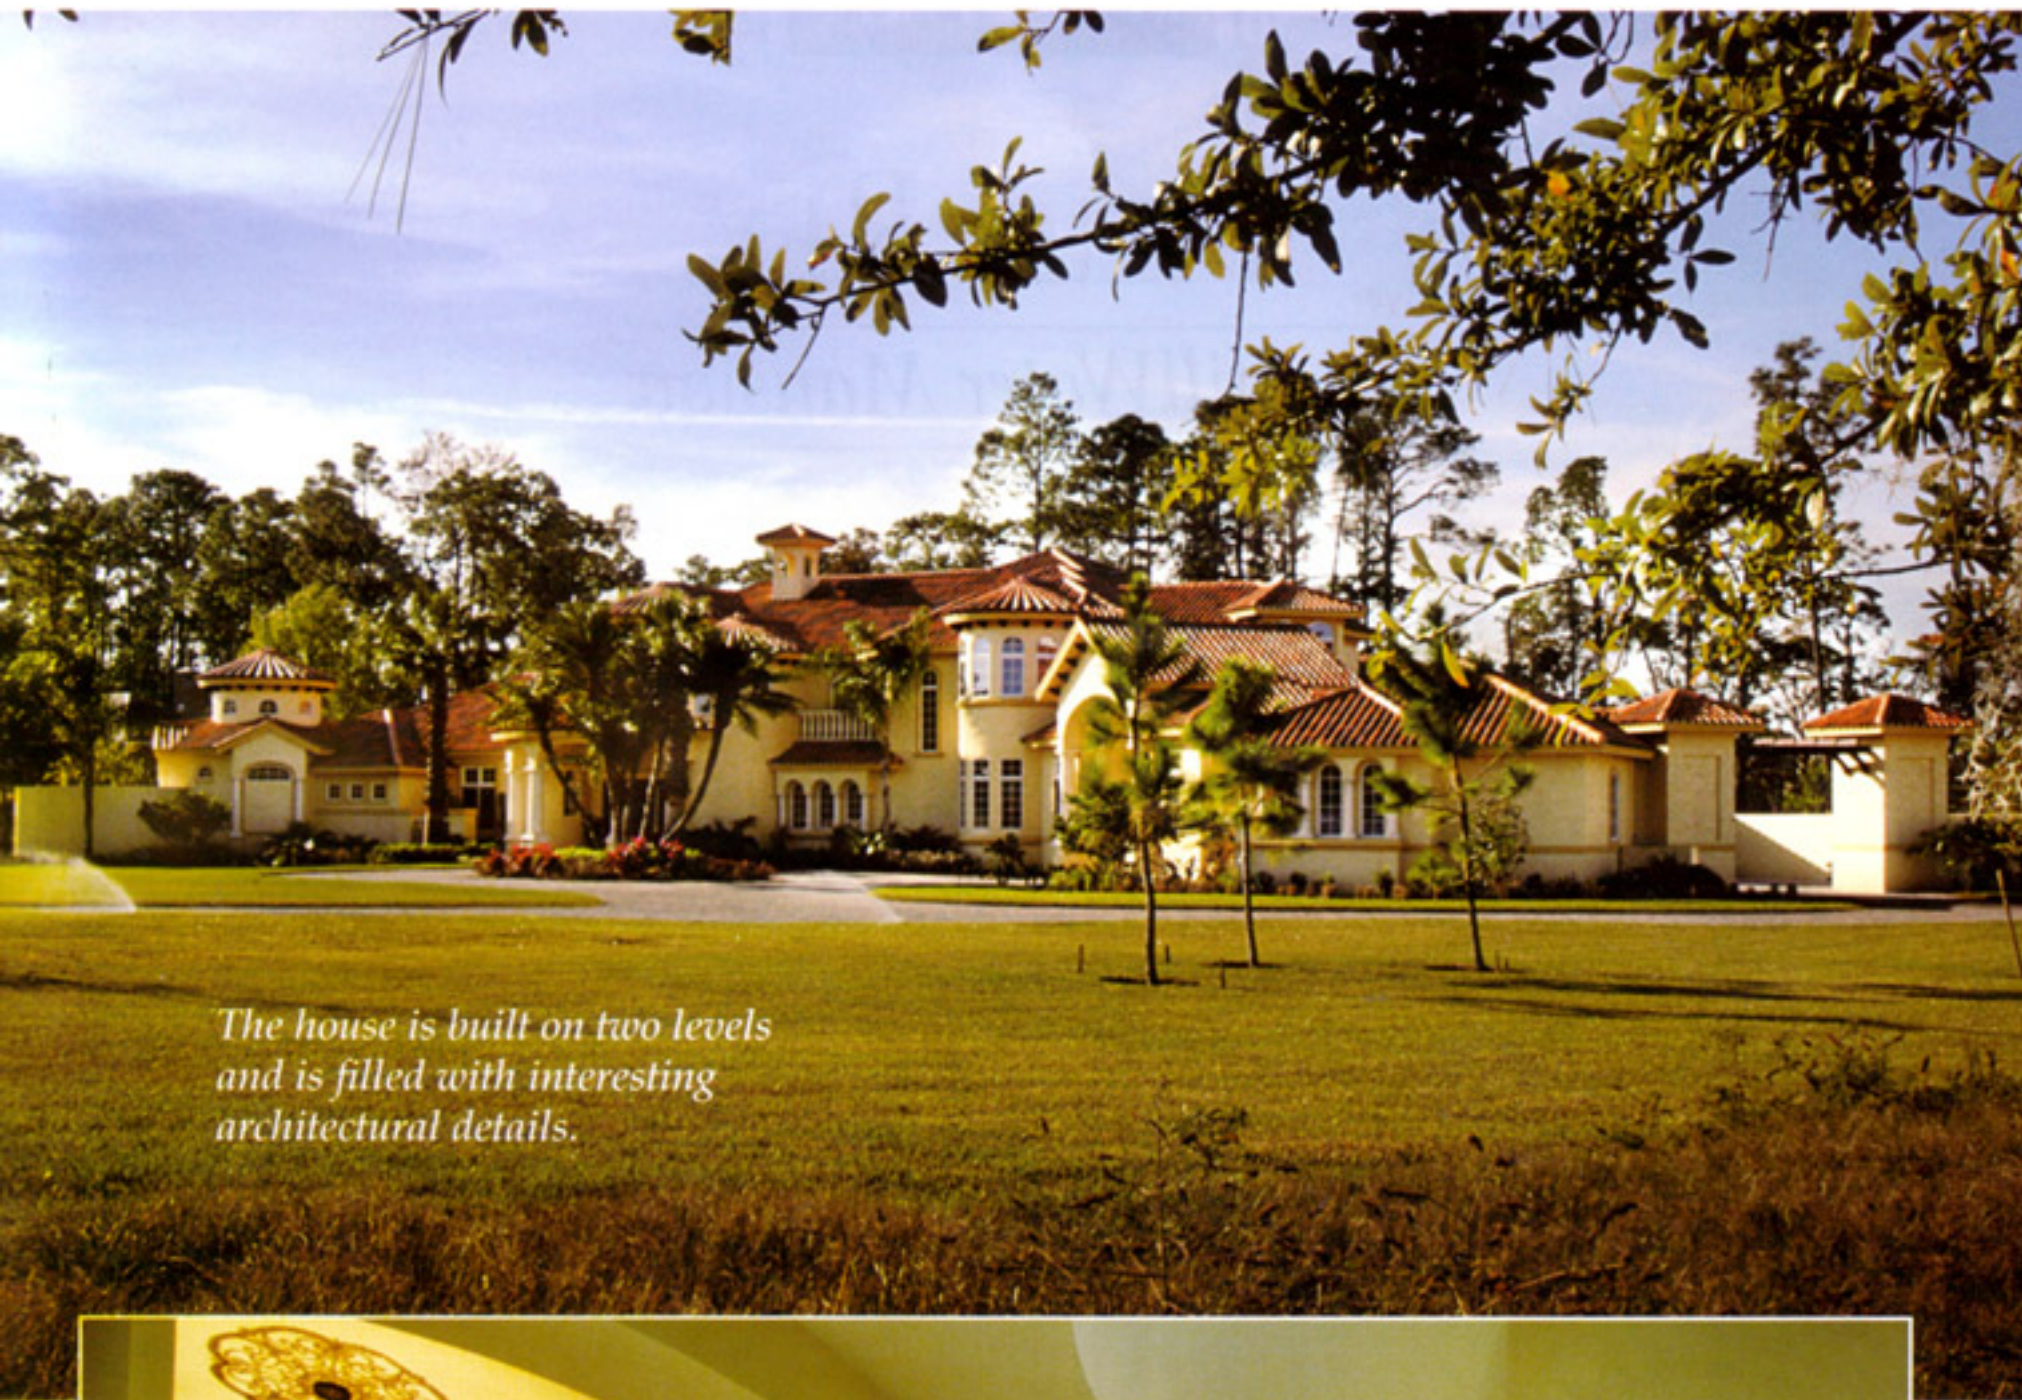

---

▲ This Alvarez Homes estate is located in the prestigious StillWater development.

**A**LVAZEV HOMES BUILT THIS 12,200 square-foot estate on a two-acre lot with breathtaking lake views in StillWater. Designed by The Evans Group, several unique concepts were incorporated into the house. Although its various roof lines give it the look of a cluster of buildings, the open interior layout has a unified traffic flow, including several staircases to the upper floor. ▶

▲ The breakfast room adjoins the spacious kitchen.

*The house is built on two levels and is filled with interesting architectural details.*

*The entry foyer is home to the grand stairway to the second level.*

▲ The impressive pool area and outdoor Florida den are below a balcony that overlooks the lake.

◀ The master bath is flooded with natural light from its abundance of windows.

Beginning at the porte-cochere or the grand foyer, you can easily move through the kitchen to the large leisure room or the adjoining library, parlor and dining salon. The grand master suite occupies one end of the first floor, while the other side of the house has four garages built around the sports and motor court. Upstairs, there are additional bedrooms and baths, along with a game room. This exceptional residence is built with the quality components expected in an estate constructed by Alvarez Homes. It is an unquestionable showplace that any family would be proud to own and enjoy. ■

*EDITOR'S NOTE: This estate is available for purchase through Joyce Schaffer of StillWater Realty, (813) 417-7770.*
