HOME & GARDEN

*The Viscaya™ model in Avila from Alvarez Homes.
Interior Design from DBS Designs with Furnishings from Annabelles.*

Photo by Jorge Alvarez

The home features a master suite designed by Shari Leonard Still to pamper the senses and provide moments of quiet relaxation. Furnished by Annabelles and DBS Designs, the 1,000 square foot suite includes double dressing rooms with oversized walk-in closets, a fireplace and sliding glass doors that lead to the pool.

The stone flooring used throughout The Viscaya is Capri Casate and was furnished by Slate & Granite Imports. DBS Designs choose a rustic country tile trim in light walnut to accent the beautiful natural stone used in this bath.

This gourmet kitchen features fine Woodmode cabinetry from Kitchen Center Plus that is adorned with fluting and rosettes. The cabinet design and heirloom sandstone stain on solid maple is coordinated throughout the home's built-ins, wetbars and butler's pantry. A classic chandelier from World of Lighting reflects the grandeur of the black granite countertops on the oversized cooking island.

This sunken wetbar features beautiful black ubatuba granite countertops from Florence Marble and Granite. A stone pediment adorns the arched doorway of the adjacent media room with a home theater from Advanced Audio Design. It includes a rear projection video screen and a sophisticated surround sound system that was specifically designed for simple, easy operation by the entire family.
